SELVA MARINA COUNTRY CLUB

21-DAY AGRONOMIC PLAN

Dear Friends,

Well there are only three weeks left to our great summer camp program. If you haven't heard, we revamped the camp this year and we are getting rave reviews about the activities and our new counselor, Chris Rugeiro. We are still working on some great experiences for the closing weeks so there is still time to get in on the fun. As a reminder, both Members and non-members are welcome to attend the camp sessions.

It is with mixed emotions that I wish our Golf Course Superintendent, Chris Durkee, a fond farewell. While we're sad to see him go, we're happy for Chris since he has started his own company, Durkee Horticultural Services, and will be devoting his full energy and time to that endeavor. Chris has been with the Club for almost four years and has done a phenomenal job over that time with limited resources and difficult circumstances. I hope you join me in wishing him and his family well.

With any departure comes a new opportunity and I will also ask you to please welcome Anthony Baur who will join our team as Golf Course Superintendent immediately. Anthony comes from the Doral Golf Resort and Spa in Miami, Florida. Hailing originally from Michigan

and a graduate of the Horticulture Program at Lake City, FL, Anthony brings an experienced and highly regarded reputation for making the most of any opportunity.

As many of you have probably noted, we have finally been seeing a regular pattern for rain which has worked wonders for greening up the golf course after months of drought conditions and irrigation issues. Despite that, we are still seeing the effects of those and other challenges on several fairways and many of the greens. Hampton Golf has created a 21 day action plan which is already underway to reverse those issues while we still have a growing season. In the short term, some areas will be aggressively treated through aerification and top dressing which may not provide an optimal putting surface. However, these practices are absolutely necessary for a full recovery and improved conditions this winter and next year. I ask for your patience and support as we work to return the course to optimal conditions.

Best Regards,

David Main
