HALLOWEEN SPOOKTACULAR | 10/28

Prices do not include tax or gratuity.

Fore! Watch out for the new guy on the course! Let me take a moment to introduce myself. My name is Anthony Baur and I am your new golf course superintendent here at Selva Marina. I am extremely excited and honored to manage such a historic course, as its history alone was enough to draw me in. For the past 5 years, I have worked at Doral Golf Resort and Spa where I have had the opportunity to learn the ins and outs of a property with multiple golf courses. Throughout my time there, I was able to work on 4 out of the 5 courses and was able to reduce water usage, increase green speeds and assisted in the rebuilding of the Jim McLean Signature course. I have also been a key team player for the past 5 World Golf Championships on the Blue Monster, hosted by Florida State Golf Association Amateur tournament and several Publix Junior tournaments.

Through these events, I have learned that sound agronomics, a well-trained staff and the proper tools will provide golfers the ultimate playing conditions. I have taken pride in all of the courses I have worked on and Selva Marina will be no different. I'm happy to report that we are already seeing growth on greens and fairways. Although

green speeds have been slow lately, we are continuously working to improve the quality of the grass to provide faster green speeds in the near future.

Being proactive to make Selva Marina a great golfing experience is my number one goal. This will be done by improving the attention to detail, consistency of the height of cuts and manage the re-growth where grass is thin.

In the meantime, you will notice scalping of grass on greens, tees, fairways, and even the roughs. By scalping the course for the next 2 to 3 weeks, we will be controlling the way the grass needs to grow instead of the grass dictating its own course. When you see this happening, please don't worry. The grass will be restored to a much stronger and healthier playing surface, which will result in much faster green speeds and overall improved appearance. Due to the past set backs of grass coverage on the course, we are now moving forward and taking aggressive steps and slicing for new lateral growth and fertilization every 3 days to the thin areas of grass.

With all the support from Hampton golf, volunteers and staff here at Selva, we are committed to providing long term success and creating experiences that last a lifetime.

HOLE-IN-ONE CLUB

Syd Jenkins | Hole #5 | 6-Iron from 160 Yards

Dave Hagist | Hole #11 | 5-Wood from 155 Yards
